

Woodcock-Johnson IV Tests of Achievement (WJIV-ACH)
Woodcock-Johnson Test of Oral Language (WJIV-OL).

1. Brief Achievement Profile WJIV -
 - a. Basic* (Reading/Math/Written Language - 6 subtests) - \$45
 - b. Advanced (Reading/Math/Written Language/Academic Knowledge [science, social studies, humanities - music, art, literature] - 9 subtests) - \$60.00
2. Broad Achievement Profile WJIV - includes timed speed tests
 - a. Basic (Reading/Math/Written Language - 9 subtests) - \$60
 - b. Advanced (Reading/Math/Written Language/Academic Knowledge [science, social studies, humanities - music, art, literature] - 12 subtests) - \$75.00
3. Full Battery WJIV-ACH – 20 subtests - \$120
4. Complete Testing – Especially useful for Special Education Needs (SEN) testing – \$235
 - Includes the 20 subtests with the WJIV-ACH, as well as 9 subtests with the WJIV-OL. The results of these tests will be combined with information from parents, and when applicable educators, and some screening inventories. For many children, this would be too much testing for 1 day, so keep in mind that more than one visit may be necessary. Timing of test administration is determined by the child’s needs.
 - Helpful with suspected learning disabilities, for planning homeschool programs, selecting curriculum, developing interventions and strategies. Cannot be used for formal diagnosis. Dr. Stoudt is willing to share all test results to collaborate with a psychologist who is willing to team and accept these results as part of a diagnostic battery.
5. Basic meets the PA homeschool law

Dr. Patricia (Patti) Stoudt
PA Professional Certificate #84-015717
Homeschool Evaluator & Consultant
B.S. – Early Childhood Education
M.S. – Education of the Deaf/Hard-of-Hearing
Ed.D. – Teaching & Learning
